## Terms and Conditions of Sale

This list cancels all previous quotations.

**PRICES ARE NET.** All bills are due in 60 days, unless other arrangements are made at time of sale. The prices named in this list are based upon present market conditions, and are subject to change without notice. We invite correspondence with prospective buyers, and shall be pleased to quote special prices on want lists calling for larger quantities than are named herein. On the other hand, these are *wholesale prices* and are applicable only to *wholesale* quantities; in no case will we fill retail orders, even though from nurserymen, at these prices. All orders must be made up in 10's or multiples of 10. Otherwise we reserve the right to decline them or to fill the orders at prices consistent with the quantity ordered.

**PACKING** will be done with every care, and always with the destination of the shipment in mind; we send Roses, Perennials, and other stock to the extreme South and to Pacific Coast points and very rarely have any loss in transit, owing to superior packing.

**BOXES AND BALES** will be charged for at *actual cost of material used*. We make no charge for packing or for delivery to the railroad stations. We invite comparison of our charges with what others ask for the same sized boxes.

**SHIPPING.** We have the NEW YORK CENTRAL, the WEST SHORE, and the PENNSYLVANIA RAILROADS, and the AMERICAN, ADAMS, NATIONAL and WELLS FARGO EXPRESS, enabling us to ship in any direction over trunk lines. **⚠ All shipments travel at the risk and cost of the purchaser.**

**TERMS.** Usual terms to those of established credit or whose responsibility is *known to us*. Cash, security, or satisfactory references required of unknown parties.

All agreements and contracts are made subject to crop losses through unavoidable causes.

**GUARANTY.** We use every precaution to have all our stock true to label, and should any prove not to be so, we will replace it without charge or refund the purchase price, but all orders are accepted by us upon the mutual agreement between purchaser and ourselves, that we shall not be responsible for other damages.

**⚠ CLAIMS** for any cause, must be made promptly on receipt of goods. Any stock that is not exactly as represented, may be returned to us immediately on arrival, and we will cheerfully and without question, credit back the unsatisfactory plants, or send others; *but we will not entertain claims made after goods have been once accepted*, or when report is not made within six days after arrival of the stock.

**INSPECTION AND FUMIGATION.** Certificate will be furnished with every shipment and when required stock will be fumigated.

**SPECIAL NOTICE.** Correspondents are requested to use their printed business letter-heads. We do not quote prices to retail buyers nor sell to planters; we have *no retail trade* of our own, and sell to the *trade only*; in justice to our *only* customers, the Nurserymen, Florists, and large dealers who do their own packing, we use every effort to limit the distribution of trade prices to those we know to be entitled to receive them. *Use printed stationery.*

**LOCATION.** We are located thirty miles east of Rochester, N. Y., and cordially invite a visit and inspection of our establishment.

Respectfully,

JACKSON & PERKINS COMPANY.

Newark, New York, September 11, 1916.

## Roses

We try to do the most of what we can do the best and that is why we have always made rose-growing our leading specialty. Newark roses are well known and in demand throughout the country. Our output of field-grown rose-bushes has increased steadily for the past fifteen years until it is now over a million plants annually. That is good evidence that our roses have given satisfaction and good results.

We have no retail trade of our own. We send out no catalogues, employ no agents and sell nothing to planters. Our ONLY customers—the Nurserymen and Florists—can expect the best that we grow.

### b Budded Plants

NOTE—When shipment is required so early in the fall as to make stripping necessary, an extra charge will be made of 1c each for Ramblers and Climbers, and  $\frac{1}{2}$ c each for other roses.

GRADES—For Fall delivery, we offer only No. 1; in the Spring, we can supply Medium Grade plants at 30 per cent. and No. 2 at 50 per cent. off these prices.

## Tree Roses for Late Fall or Spring Delivery

Imported, \$25.00 per 100

In orders placed now, we can import any staple varieties that our customers may want.

## Clematis

Our success in growing Clematis free from the dreaded disease found in the Holland-grown plants, and the demand for the home-grown stock, has enabled us to hold the lead as the largest growers of Clematis in the world.

We grade our Clematis in three sizes, as we do our roses, and offer two grades under No. 1, which are described as follows:

No. 1½ grade will consist of plants just under first grade. They will be good thrifty stock, splendid plants for mail orders and suitable anywhere that an extra heavy grade is not required.

No. 2 grade will also do very nicely for mail trade, being healthy, well-rooted plants. We also recommend them for transplanting and growing on, as they will make fine, strong plants very quickly.

For early Fall Shipment, we offer No. 1 Grade only; lighter grades can be delivered any time after we dig and grade our Clematis in the late fall.

All strong, two years old, field grown—our leading specialty next to Roses—own root plants, free from blight.

His complete new catalogue will be sent on request.

# Peonies

It is not necessary to grow a thousand or even a hundred varieties to have a collection that will include everything really worth while. We have sifted out all the duplicates eliminating those with defects of any kind, and present here an assortment covering the entire range of colors, extending over the blooming season, and representing the very best out of hundreds of varieties gotten together from specialists in France, England, Holland, Japan, and in this country. Strong divisions, with three to five good eyes.

New York State, May 18, 1916.  
As usual stock was up to the mark and fine—EVERYTHING was nice—almost too nice for a NURSERYMAN."

Michigan, April 26, 1916.  
“CALIFORNIA PRIVET arrived Monday in good shape and certainly it is fine stock. We want some more of the same kind, send us—”

New York State, July, 1916  
“I didn't lose a tree or rose of yours last spring.”

Michigan, April 12, 1916.  
“GENERAL ASSORTMENT—stock in good condition and as ordered.”

New York State, May 15, 1916.  
“CALIFORNIA PRIVET was heavy, nice stock and had some foundation to grow on.”

“TREE ROSES were extra fine.”

“I surely am well pleased this spring—and the stock of last fall's shipment—you ought to see it! I offered the firm I set them for a dollar apiece for every dead plant they could find AND HAVEN'T LOST A CENT YET—and the stock was set in a particularly rough landscape too, practically a dumping ground!”

New Hampshire, May 8, 1916.  
“VINES AND SHRUBS, the whole transaction very satisfactory—Thank you!”

Cut-leaved Weeping Birch, 3 years old, an exceptionally perfect stand of this difficult tree to propagate.

## APPLES, Dwarf, on Doucin (English Paradise) Stocks, 2 years

For some years have budded a considerable quantity of apples on English Paradise stocks. This stock dwarfs the mature trees considerably and brings them into fruiting at a much earlier age than standard trees. The dwarf trees are much in demand for planting in city lots where space is limited and for using as fillers in commercial orchards, so as to obtain some income before the standard trees come into bearing.

**FRENCH STOCKS FOR NURSERY PLANTING.** We sell both Fruit Tree Seedlings and Ornamentals of all kinds, in sizes suitable for nursery planting. We are sole American Agents for Mr. Charles Detriche, Sr., Angers, France, who is one of the best growers and most careful graders and packers among the French nurserymen. His complete new catalogue will be sent on request.

"Some" Hydrangeas. We grow—and sell—35000 to 40000 annually. They are all in 6-inch pots.

## FORCING STOCK FOR FLORISTS

### "MADE IN AMERICA"

**HYDRANGEAS.** GROWN IN 6-INCH POTS for forcing for Easter and Decoration Day.

They are all in 6-inch pots; foliage dark green; branches strong and "fat" with the promise of big blooms and plenty of them; as good a lot of Hydrangeas, as we have ever grown. We sell between thirty and forty thousand every year; we could not do it if our Hydrangeas did not give satisfactory and profitable results to our customers.

These prices f.o.b. cars, no extra charge for packing.

Plants with 5-6 branches	Per 100

Gen de Vibraye, bright rose, very large heads.

La Lorraine, large flowers, pale rose, turning to bright pink.

Lilie Moulliere, bright carmine-rose.

Mme. Maurice Hamar, large, delicate flesh-rose color.

Mme. Emil Moulliere, pure white with rosy-carmine eye; very large; the best white.

Otaksa, the old stand-by for pink. More easily forced than some of the newer sorts.

Radiant, clear, bright pink; an exceptionally handsome shade.

**GENISTAS.** In 5-inch pots; nice, compact plants at \$20.00 the hundred. These **YELLOW FLOWERED GENISTAS** are a relief from the monotony of pink and red.

**LILACS.** Pot-grown, another "Made in America" line which we have added after several years of experimenting. Our supplies are entirely booked up for this season.
